**Trip leader:** Angelo Frieri

**Who will be leading training sessions?** Angelo Frieri

**What can participants expect from this trip?**

A broadened and fresh cultural experience to see how God is moving in other countries where joy and contentment is evident in daily life amidst challenging daily living conditions. Participants usually walk away with a renewed perspective of gratitude and an opportunity to slow down and get quiet with The Lord away from our daily fast paced western lifestyle.

**How can the people the team is going to serve benefit/learn from them?**

They will learn that Christians from the church of the United States very much needs prayer and revival despite having many worldly privileges. Massai we engage with should learn that it is a gift for us to have friendship with them and that it is our pleasure to visit them, travel the long distance and serve them as we are all members of the same body.

**Has Crossroads had previous similar trips?**

Yes, at least 10 times since 2010. Angelo has been on 5 and have led teams twice of 14 and 24.
