

Camp Alive 2019 Elective Classes for Grades 3-5

Students in grades 3-5 will select three elective classes. These classes are based on a first come, first serve basis, not all electives are offered all three classes. If the class is no longer available, you will not be able to choose it, as we have reached class capacity.

If you want to be placed in the same classes as a friend, you must sign up for the same classes in the same order.

If your child has a food allergy, we recommend that you do not choose a food class. We cannot guarantee an allergen-free environment in our food classes.
